Summary

All three pillars, calculated from the European Commission's 2026 reports of 4 November 2026 and the chapter counts of the Council of the EU, the same data as the EU Integration Tracker website.

75.9 / 100
HIGHEST INDEX SCORE
Montenegro, first on all three pillars

17.9 points
LEAD OVER SECOND PLACE
Albania, 57.9

76.3 / 100
SECOND-HIGHEST MOMENTUM
Moldova, behind Montenegro (81.6)

Key findings

- **Montenegro leads with 75.9** and is first on formal stage, preparation and momentum. It has provisionally closed 21 of 33 chapters, and the Commission says it could close the remaining ones by the end of 2026 if member states agree.
- **Albania is second with 57.9.** It has opened all 33 chapters and closed four; the Commission says it met the interim benchmarks on the rule of law chapters. Albania aims to conclude negotiations by 2027.
- **Moldova (49.0) and Ukraine (43.3) share the same formal score (43.2)** but Moldova is better prepared (45.1 against 37.2) and has more momentum (76.3 against 62.1). The Commission says both have met the conditions to open all remaining clusters.
- **Serbia (46.9) has the lowest momentum of the six countries in negotiations (37.9).** Its preparation score (53.0) is the third highest, but the Commission finds no substantive progress in its negotiations.
- **North Macedonia (41.1) is well prepared (53.3) but has opened no chapters**, because the constitutional amendments are still pending.
- **Türkiye (42.9) and Georgia (23.0) are flagged** because their processes are halted. Bosnia and Herzegovina (17.7) and Kosovo (20.1) have the lowest scores; the Commission notes growing disengagement in Bosnia and Herzegovina and stalled reforms in Kosovo.

Index = 40% pillar A (formal stage) + 45% pillar B (level of preparation) + 15% pillar C (reform momentum). Every pillar and the index range from 0 to 100.

Country notes

Chapter counts, the main finding of the Commission's 2026 report and the next step for each country, ordered as in the ranking.

Montenegro

Index 75.9 · A 75.5 · B 74.3 · C 81.6

21 closed · 33 opened · 33 total

Commission 2026 report. The report says that, subject to member states' agreement, Montenegro could close its remaining chapters by the end of 2026, and that work on its accession treaty is well under way; an indicative roadmap sets milestones for the coming year.

Next step. Close the remaining 12 chapters, by the end of 2026 according to the Commission if member states agree, and finalise the accession treaty. The government aims to join in 2028. On 21 Oct Commissioner Kos said the treaty could be signed by summer 2027 if reforms continue and the open issues with Croatia are settled.

Albania

Index 57.9 · A 54.8 · B 57.9 · C 66.3

4 closed · 33 opened · 33 total

Commission 2026 report. The report says Albania has opened its last cluster and met the interim benchmarks on the rule of law chapters, paving the way for four provisional chapter closures; Albania aims to conclude negotiations by 2027.

Next step. Close the remaining 29 chapters, starting with four for which the interim benchmarks are met, with the aim of concluding negotiations by 2027.

Moldova

Index 49.0 · A 43.2 · B 45.1 · C 76.3

0 closed · 24 opened · 33 total

Commission 2026 report. The report says Moldova has met the conditions to open all remaining clusters and aims to close negotiations by early 2028.

Next step. Open Clusters 4 and 5 (nine chapters), for which the Commission considers the conditions met. Closing chapters depends on the Cluster 1 interim benchmark report. Target for closing negotiations: early 2028.

Serbia

Index 46.9 · A 43.5 · B 53.0 · C 37.9

2 closed · 22 opened · 34 total

Commission 2026 report. The report finds no substantive progress in Serbia's negotiations, citing rising polarisation, low alignment with the common foreign and security policy and the obligations of the EU-facilitated Dialogue; progress now depends on the new government's reforms.

Next step. Unanimous Council decision to open Cluster 3, linked to progress on the rule of law and relations with Kosovo. Once the official results are declared, the new parliament must convene within 30 days; if it does not elect a government within 90 days of its constitution, it is dissolved.

Ukraine

Index 43.3 · A 43.2 · B 37.2 · C 62.1

0 closed · 24 opened · 33 total

Commission 2026 report. The report says Ukraine has met the conditions to open all remaining clusters; its priorities include the interim benchmarks on the rule of law and public administration reform, and it aims to close negotiations by the end of 2028.

Next step. Open Clusters 4 and 5 (nine chapters), for which the Commission considers the conditions met. Closing chapters depends on the Cluster 1 interim benchmark report. Target for closing negotiations: end of 2028.

Türkiye

Index 42.9 · A 38.3 · B 48.4 · C 38.9

1 closed · 16 opened · 33 total

Commission 2026 report. The report says the gap between Türkiye's EU objective and its democratic backsliding has widened, citing legal action against officials, the opposition and civil society.

Next step. None scheduled. Updating the customs union remains under discussion.

North Macedonia

Index 41.1 · A 25.0 · B 53.3 · C 47.4

0 closed · 0 opened · 33 total

Commission 2026 report. The report says North Macedonia advanced work on the opening benchmarks for the fundamentals cluster and on public administration reform, but still needs to adopt the constitutional amendments.

Next step. Constitutional amendment, then the first conference to open Cluster 1.

Georgia

Index 23.0 · A 15.0 · B 28.0 · C 29.5

No negotiating chapters yet

Commission 2026 report. The report says accession remains de facto halted and Georgia is still a 'candidate country in name only'.

Next step. A Commission recommendation to open talks, considered unlikely under current conditions.

Kosovo

Index 20.1 · A 5.0 · B 26.7 · C 40.6

No negotiating chapters yet

Commission 2026 report. The report says reforms stalled during a prolonged institutional crisis; the Commission has lifted its measures and stands ready to prepare an Opinion on the application if the Council asks.

Next step. Unanimous Council decision to request a Commission opinion.

Bosnia & Herzegovina

Index 17.7 · A 15.0 · B 16.4 · C 28.9

No negotiating chapters yet

Commission 2026 report. The report says Bosnia and Herzegovina still declares EU integration a strategic goal but is increasingly disengaging, and calls for the swift formation of executive and legislative bodies after the elections.

Next step. Meet those conditions so the Commission can propose the negotiating framework. Growth Plan funds are at risk if reforms miss the December deadline.

Methodology

The index combines three pillars. Every input is published on the EU Integration Tracker website, so each score can be checked.

40%
A. Formal stage

Where the country stands in the accession procedure, from the application to the end of negotiations. Updated after every accession conference.

Source: Council of the EU; European Commission, 2026 state of play.

45%
B. Level of preparation

Average Commission rating across the negotiating chapters, the economic criteria and public administration reform, rescaled from 1–5 to 0–100. Chapters 23 and 24 count double.

Source: European Commission 2026 country reports.

15%
C. Reform momentum

Progress recorded by the Commission over the last twelve months, scored from 0 (backsliding) to 5 (very good progress) with the same weights as pillar B and rescaled to 0–100, so that a country moving backwards is not rewarded for past progress.

Source: European Commission 2026 country reports.

How pillar A is scored

STEP	POINTS
Application submitted	5
Candidate status granted	10
Accession talks opened	10
Chapters opened	up to 25, in proportion
Chapters provisionally closed	up to 40, in proportion
Negotiations concluded and accession treaty signed	10
Total	**100**

Shares use each country's own number of chapters: 34 for Serbia, 33 for the others.

Reading the Commission ratings

LEVEL OF PREPARATION	SCORE	PROGRESS	SCORE
Early stage	1	Backsliding	0
Some level	2	No progress	1
Moderately prepared	3	Limited progress	2
Good level	4	Some progress	3
Well advanced	5	Good progress	4
		Very good progress	5

Rules and limits

- Halted processes are flagged. Their formal scores reflect steps taken in the past.
- Provisional closure of a chapter counts as closure, as reported by the Council, although it is not final until all chapters are agreed.
- Ratings are read directly from the Commission's 2026 country reports, published on 4 November 2026. A rating given between two levels (for example "between some level and moderately prepared") counts as the midpoint, and a chapter without a rating is left out.
- Kosovo has no rating for chapter 33 and no progress rating for chapter 31, so these are left out of its averages.
- The index measures progress in the procedure and in alignment with EU standards. It does not predict accession dates or judge whether a country should join.
- The Preview edition of October 2026 used 2025 ratings from a secondary source and is replaced by this edition.

Release calendar

- **Quarterly updates from February 2027:** pillar A after accession conferences; pillars B and C fixed until the next Commission package.
- **Edition 2:** after the Commission's 2027 enlargement package.
